

Dear Prof. Lyubomyr Nykyruy,

We are pleased to inform you that the ESTEEM3 Transnational Access Proposal Evaluation Committee (TAPEC) has positively evaluated your proposal for Transnational-Access to ESTEEM3 facilities. You are now invited to contact the platform leader mentioned below in order to set the practical arrangements of your experiment.

Project title:	Crystal structure of heterophase solid solutions PbCdTe for thermoelectric application		
Project acronym:	PbCdTe for thermoelectricity		
Platform:	IC-EM Krakow		
Installation 1:	Sample preparation	Units of Access:	3 samples
Installation 2:	TEM	Units of Access:	9 days
Installation 3:	Data Analysis	Units of Access:	7 days
Local contact:	Grzegorz Cempura	Email address:	cempura@agh.edu.pl

Please note that the granting of Transnational Access to Users is subject to the following conditions:

- Only User groups that are entitled to disseminate the foreground they have generated under ESTEEM3 are eligible to benefit from access free of charge to the installations.
- When disseminating in publications or conferences the results obtained under the ESTEEM3 project, Users are required to acknowledge the ESTEEM3 support with a formal sentence: ***“This project has received funding from the European Union’s Horizon 2020 research and innovation programme under grant agreement No 823717 – ESTEEM3”.***
- Users are required to add the ESTEEM3 logo and the European emblem to any presentation referring to experiments performed with the help of ESTEEM3 installations.
- After the experiments have been performed, Users are required to fill an online questionnaire and to write a report using the template downloadable on the website. These questionnaire and report will be communicated to the European Commission.

Sincerely yours,  
The ESTEEM3 Coordination Team
